INFORMATIONEN Behandlung fabrikneuer Instrumente

Fabrikneue Instrumente sind vor der ersten Sterilisation bzw. Nutzung zu reinigen. Schutzkappen und Schutzfolien sind vollständig zu entfernen, z.B. bei Meißeln, Raspatorien oder mikrochirurgischen Instrumenten.

Maschinelle Reinigung / Desinfektion

- Bei der Programmwahl das Material (z.B. nichtrostender Instrumentenstahl, Aluminium) des zu reinigenden Instruments berücksichtigen. Anweisungen des Geräteherstellers beachten.
- Schlußspülung mit vollentsalztem Wasser durchführen.
- Ausreichende Trocknungsphase einhalten.
- Instrument sofort nach Beendigung des Programms aus der Maschine nehmen.

Pflege / Prüfung

- Instrument auf Raumtemperatur abkühlen lassen.
- Bewegliche Teile (z.B. Gelenke und Schlüsse) mit sterilisierbarem, dampfdurchlässigem Pflegeöl leicht ölen (z.B. STERILIT Ölspray JG 600 oder Pflegeöl JG 598, Physiologisch unbedenklich nach DAB und § 31 LMBG).
- Nach jeder Reinigung, Desinfektion Instrument prüfen auf Sauberkeit, Funktion und Beschädigungen, z.B. verbogene, zerbrochene, rissige, abgenutzte und abgebrochene Teile.
- Beschädigtes und defektes Instrument aussortieren und ersetzen.

Packen

- Instrument mit feinem Arbeitsende und/oder mikrochirurgisches Instrument in geeigneten Lagerungshilfen lagern.
- Instrument mit Sperre in der ersten Raste fixieren.

Instrumente

Im täglichen Einsatz kommt den Instrumenten eine wichtige Rolle zu. Kaum ein Bereich der modernen medizinischen Arbeit lässt sich ohne Medizinprodukte umsetzen. Vom Adenotom über den Katheter bis zum Zungenspatel – Medizinprodukte gehören dazu. Auch bei ihnen spielt die richtige Desinfektion eine wichtige Rolle, um Infektionsrisiken zu minimieren und sowohl Anwender als auch Patienten nachhaltig zu schützen.

Die Medizinproduktaufbereitung ist einer der Kernbereiche der Hygiene und steht im Fokus von Gesetzgeber und Prüfbehörden. Die Anforderungen in diesem Gebiet sind komplex, denn viele Medizinprodukte besitzen sehr spezifische Eigenschaften oder bestehen aus hoch sensiblen Materialien. Hersteller von Medizinprodukten sind daher verpflichtet, Angaben zur Aufbereitung zu machen.

Im Folgenden soll daher nicht auf einzelne Instrumente eingegangen werden; vielmehr bieten wir auf Grundlage unserer Expertise grundsätzliche Hinweise sowie Anleitungen zur Medizinproduktaufbereitung.

Eine sichere Medizinproduktaufbereitung trägt in hohem Maße zum Therapieerfolg bei. Mit uns steht Ihnen ein zuverlässiger Partner zur Seite, der Sie mit systematisch abgestimmten Produkten und mit Rat und Tat unterstützt.
